PUBLICATIONS

Suner, M.C., & Tuncay, D. (2026). Numerical Assessment of Rock Mass Characteristics Relevant to Stone Mine Pillars. In *ICGCM 2026 (Proceedings, 45th International Conference on Ground Control in Mining, Charleston, West Virginia, August 2026)*.

Suner, M.C., & Tulu, I.B. (2027). Stochastic Sampling on Synthetic Rock Mass to Study the Effect of Natural Joints on Pillar Mechanics. In *ICGCM 2026 (Proceedings, 45th International Conference on Ground Control in Mining, Charleston, West Virginia, August 2026)*.

Suner, M.C., Elibol, A., Jimenez, R., Tuncay, D., & Agioutantis, Z. (2024). Calibration of LaModel In-Seam Material Properties for Underground Stone Mine Benching Operation by Employing Brittle Failure Criteria in FLAC3D. In *ICGCM 2024 (Proceedings, 43rd International Conference on Ground Control in Mining, Canonsburg, Pennsylvania, July 2024)*.

Suner, M.C., & Tulu, I.B. (2022). Examining the Effect of Natural Fractures on Stone Mine Pillar Strength through Synthetic Rock Mass Approach. *SME Mining, Metallurgy & Exploration, 39, 1863–1871*. https://doi.org/10.1007/s42461-022-00649-2
