PUBLICATIONS

Ghadirianniari, S., McDougall, S., Eberhardt, E., Varian, J., Llewelyn, K., Campbell, R., & Moss, A. (2024). Statistical analysis of the impact of ore draw strategies on wet inrush hazard susceptibility in a panel cave mine. *International Journal of Rock Mechanics and Mining Sciences*, *174*, 105632.

Ghadirianniari, S., McDougall, S., Eberhardt, E., Varian, J., Llewelyn, K., Campbell, R., & Moss, A. (2024). Wet inrush susceptibility assessment at the Deep Ore Zone mine using a random forest machine learning model. *Mining Technology*, *133*(3), 276-288.

Ghadirianniari, S., McDougall, S., Eberhardt, E., Llewelyn, K., Campbell, R., & Moss, A. (2022). Impact of draw strategy on wet muck spill hazard severity at the Deep Ore Zone mine. In *Caving 2022: Fifth International Conference on Block and Sublevel Caving* (pp. 597-610). Australian Centre for Geomechanics.

Ghayoomi, M., Ghadirianniari, S., Khosravi, A., & Mirshekari, M. (2018). Seismic behavior of pile-supported systems in unsaturated sand. *Soil Dynamics and Earthquake Engineering*, *112*, 162-173.

Khosravi, A., Hashemi, A., Ghadirianniari, S., & Khosravi, M. (2020). Variation of small-strain shear modulus of unsaturated silt under successive cycles of drying and wetting. *Journal of Geotechnical and Geoenvironmental Engineering*, *146*(7), 04020050.
