

## Senior IT Analyst

**Expertise** **Cybersecurity, Web Pentesting, Web Development (WordPress/WooCommerce), Systems Automation, OSINT, Digital Forensics, Infrastructure Monitoring, Technical SEO, SysAdmin**

**Education** Certifications in Cybersecurity and Ethical Hacking, 2024–2026  
Cisco, EC-Council, CertiProf, Palo Alto, Security Blue Team (Online)  
Diploma in Cybersecurity, 2023  
Universidad del Desarrollo, Chile  
Software Developer, 2018  
INACAP, Chile

**Honors** Junior Cybersecurity Analyst Certification – Cisco (2024)  
Ethical Hacking Professional Certification – CEHPC (2024)  
Certified Phishing Prevention Specialist – CPPS (2026)

### Professional Experience

2026 – Present ITASCA Chile, Santiago, Chile  
Senior IT Analyst

2025 ENNOVATE, Cybersecurity Training, Chile  
Instructor – Ethical Hacking in Web Applications

2025 SUSTANTIVA, Digital Training, Chile  
Instructor Assistant – Ethical Hacking Bootcamp

2024 V2NETWORKS, Security & Infrastructure Department, Chile  
Cybersecurity Engineer & IT Support

2021 – 2024 TSG The Synergy Group, Cybersecurity Department, Chile  
Cybersecurity / Ethical Hacking Specialist

2018 – 2021 TSG The Synergy Group, IT Department, Chile  
System Administrator (SysAdmin)

2017 – 2018 MJM Mecánica Industrial, IT Department, Chile  
IT Technician

### Project Experience

#### Cybersecurity & Pentesting:

Performed penetration testing in corporate and controlled environments (black, grey, and white box), vulnerability analysis based on OWASP Top 10 and MITRE ATT&CK. Implemented security strategies aligned with NIST CSF, including system hardening, threat hunting, and incident response.

**Training & Education:**

Designed and delivered ethical hacking and cybersecurity training programs, including hands-on labs in simulated environments. Evaluated technical competencies of students and professionals.

**Infrastructure & IT Administration:**

Managed Linux and Windows Server environments, virtualization using VMware and Proxmox, network administration (LAN/WAN, VLANs), backup solutions, disaster recovery (DRP), and access control.

**Web Development & Automation:**

Developed web solutions using WordPress, automated processes through APIs and tools like n8n, implemented SEO optimization, and built custom business-oriented systems.

**Digital Forensics & OSINT:**

Used tools such as FTK, Autopsy, Volatility, and Magnet AXIOM for digital forensic investigations, combined with OSINT techniques for intelligence gathering and analysis.
