

---

**Hydrogeology Project Specialist**

**Experience** Hydrogeology, Geology, Drilling Mapping, GIS

**Education** Geology, degree in engineering sciences, 2021  
Universidad de Atacama, Copiapó, Chile

**Professional Experience**

January 2024 – Present ITASCA Chile SpA, Santiago, Chile.  
Hydrogeology project specialist

Oct 2023 – Dec 2023 Exploraciones Minera Andinas SA. (EMSA), Santiago, Chile.  
Junior Geologist

March 2023 – Sept 2023 Exploraciones Minera Andinas SA. (EMSA), Salar de Maricunga, Chile.  
Thesis Student

**Project Experience**

Graduate thesis study on the stratigraphy and hydrogeological characterization of the Maricunga Salt Flat for EMSA, participating in the characterization and definition of the hydrogeological units present in the salt flat basin. Support in the generation of geological and hydrogeological information and analysis of the project's database.

Design of well installation, preparation of geological and hydrogeological sections in Leapfrog Works, preparation of maps and figures in QGIS, analysis and processing of hydrogeological databases, support in the generation of piezometric maps and the development of hydrogeological models and related technical reports.
