
Hydrogeology Specialist

Expertise Tailings deposits and pits, special focus on Hydrogeology and Geochemistry

Education Geologist, 2022
Universidad de Chile, Santiago, Chile

Professional Experience

- 2023 – Present Itasca Chile Spa., Hydrogeology Area
Hydrogeology Specialist
- 2022 WSP E&I Chile Spa., Geology, Hydrogeology and Exploration Area
Hydrogeology Junior
- 2022 SRK Consulting Spa., Hydrogeology Area
Field Geologist
- 2021 –2022 Montgomery & Associates
Memorist
- 2021 Parque Pillanmpau Andino
Professional Practice II
- 2020 Arcadis Chile Spa
Professional Practice I

Project Experience

Provided support in field work and data processing through the use of various software. Carried out hydrogeological, hydrochemical and geochemical characterizations in different geological environments, as well as hydrogeological tests during the supervision of 'reverse air' drilling and supervision of pits, among others. Contributed to environmental impact assessments, supervision of geotechnical and hydrogeological exploration campaigns and geotechnical consulting projects. His experience ranges from hydrogeological characterization of basins to mass removal susceptibility mapping and debris flow modeling.
