

Mining Engineering

Expertise

Geomechanical Engineering and Numerical Modeling

Education

Mining Engineering, Universidad de Chile, Santiago de Chile, 2008

Professional Experience

2009 - Present

Itasca S.A., Santiago de Chile, Geomechanics Engineer

Project Experience

Geomechanics comparison between geometries for underground mines utilizing the block-caving mining method. Participation in mining design projects and in the geomechanics assessment of alternative layouts for block-cave mining.
